

## UNIVERSITY OF NAIROBI

### Call for online applications for September 2024 admissions to Sustainable Management and Operations

Master of Sustainable Management and Operations (SuMO) is a new two-year masters level program being offered at the Department of Agricultural Economics, Faculty of Agriculture, University of Nairobi.

The program is implemented through the Africa Centre of Excellence on Sustainable Operations for Resource Management and Food Supply (SCO) established with the financial support of DAAD. The Centre brings together University of Nairobi (UoN), the University of Dar es Salaam (UDBS), the Kuehne Logistics University (KLU) and Kühne Foundation to jointly contribute to enhanced skills and knowledge in sustainable management and operations.

The SuMO Program aims to impart students with skills and knowledge required for sustainable business operations. Students will learn from a highly interdisciplinary team drawn from professors and industry professionals in agribusiness, operations management, supply chains, agricultural economics, business science and sustainability. This will holistically equip them with requisite skills and knowledge on sustainable operations which have been missing in the conventional business management trainings, making SuMO unique.

The Programme is designed for both regular government-sponsored and self-sponsored students and takes into consideration the needs of international students. It offers the flexibility of full-time and part-time learning.

#### **Admission Requirements**

The candidates for the MSc Programme in Sustainable Management and Operations should be at least:

- i. Holders of a degree with at least Upper Second Class Honours in areas related to agriculture, environment, agribusiness, business, social science and natural sciences of the University of Nairobi or an equivalent degree from a university recognized by the University of Nairobi Senate, or
- ii. A holder of a degree with at least Lower Second Class Honours in any of the degrees specified in (i) above with two years of relevant experience or a postgraduate diploma in (i) above or equivalent from the University of Nairobi or any other institution recognized by senate.
- iii. A holder of a pass degree with a postgraduate diploma in the above relevant disciplines or its equivalent from the University of Nairobi or any other institution recognized by the senate and two years relevant experience.
- iv. A holder of pass degree in any of the degree categories specified in (i) above with at least five years relevant work experience.
